

# Green Screen Dashboard Training

How to use the Green Screen Application

# 1. Sign in

Begin by logging into your account and press “SIGN IN” button when ready

The image shows a web interface for logging in. At the top, there is a green header bar with the text "GREEN SCREEN" in white. Below this, the main background is a light gray. In the center, there is a white rectangular box with a subtle shadow. Inside this box, the title "Green Screen Login" is centered at the top. Below the title, there are two input fields: one for "Username" and one for "Password". Each field has a placeholder text "Your username" and "Your password" respectively. At the bottom of the white box, there is a green button with the text "SIGN IN" in white.

# 2. Home Page

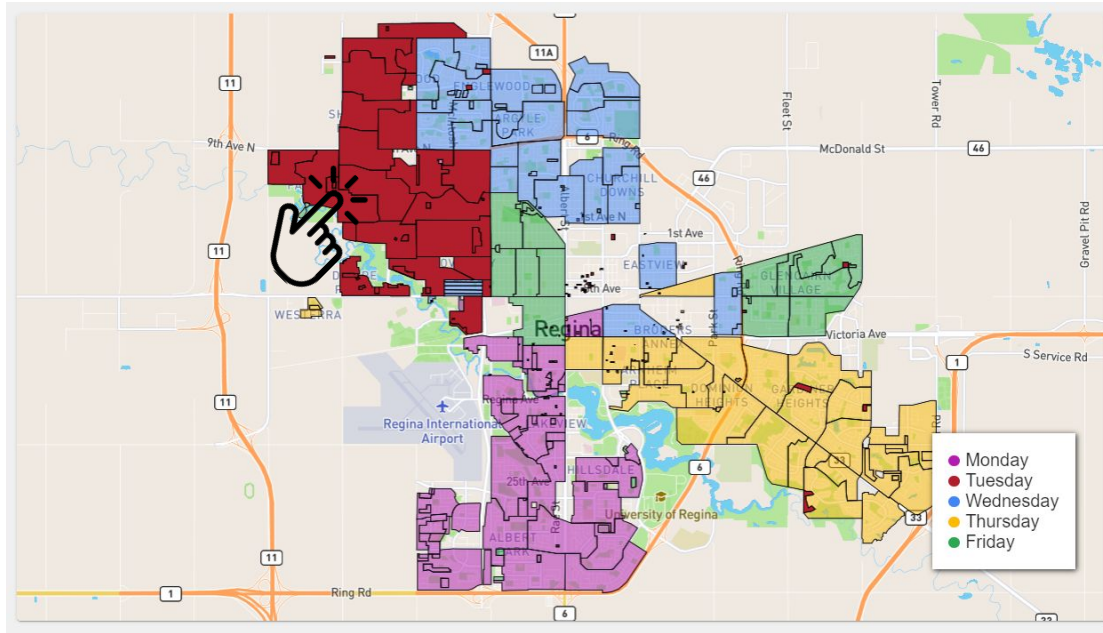

On the **home page** you will be provided the performance for the city for the current week.

## 2. Home Page

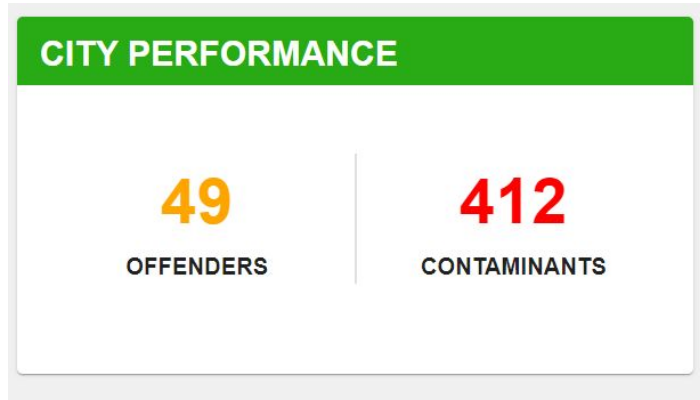

The **map** on this page illustrates the different collection regions in the city and which days the recycling was collected

## 2. Home Page

You can hover and **click** on these regions to see information for that specific **collection day**

## 2. Home Page

### Performance by Colours:

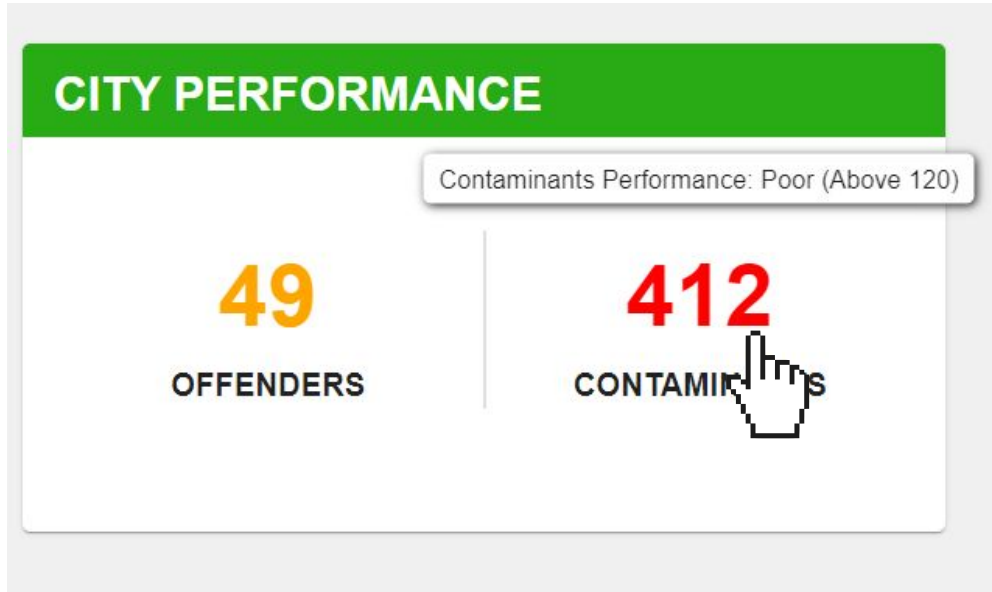

**Green** - Good

**Orange** - Moderate

**Red** - Severe

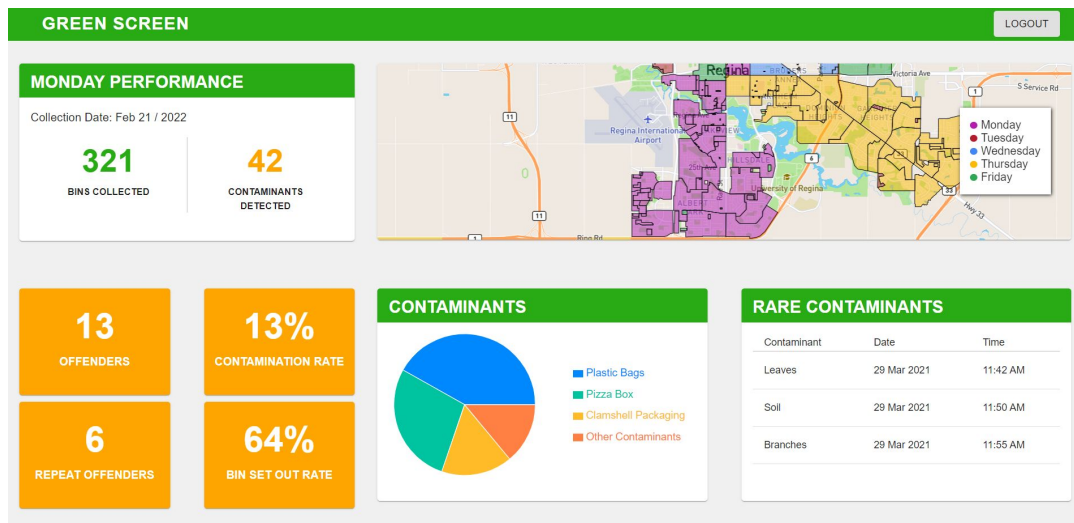

The home page shows collection information for the week. Some key information displayed here are the **offenders** and **contaminants**. These values have colour indication for you to see how that value is performing based on the municipalities thresholds.

## 2. Home Page

**Hover** over these values to understand why this colour was associated.

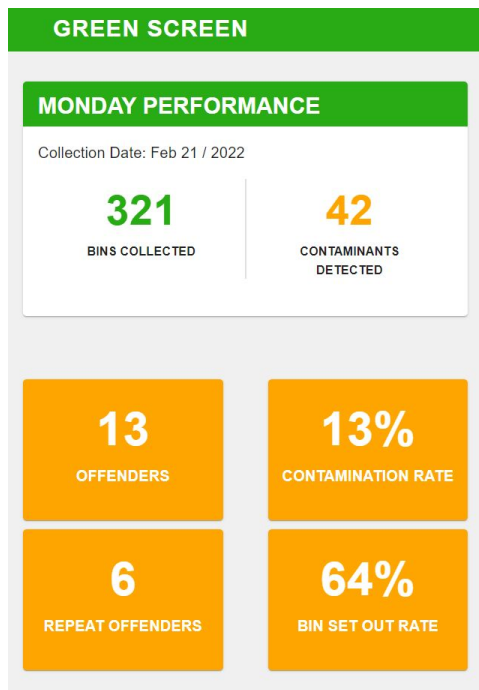

# 3. Collection Day

On the **Collection Day** page you will be provided with information about that specific collection day.

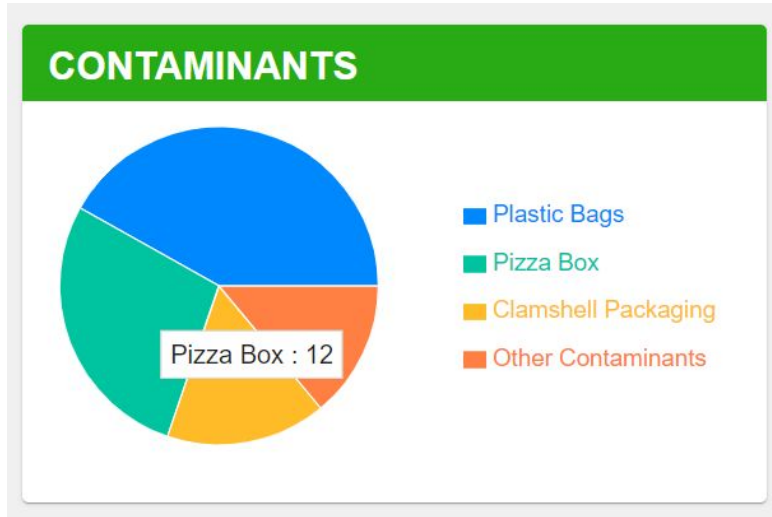

# 3. Collection Day

The **Collection Day** page shows valuable metrics for you to analyze the performance for that day. Similar to the home page, the information is colour coded to make the areas of concern easy to identify. The six categories of information displayed for the collection day are:

1. Bins Collected
2. Offenders
3. Repeat Offenders
4. Contaminants Detected
5. Contamination Rate
6. Bin Set out rate

# 3. Collection Day

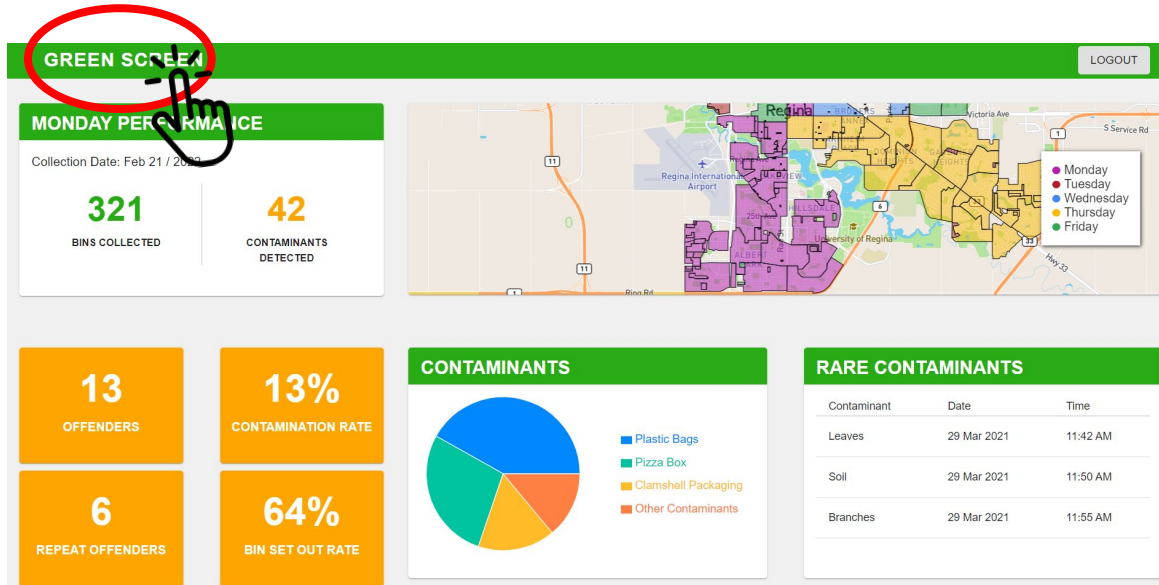

The **Contaminants** panel shows you all the contaminants which were detected for that collection day. **Hover** over the pie chart to see the exact number each contaminant occurred

# 3. Collection Day

RARE CONTAMINANTS		
Contaminant	Date	Time
Leaves	29 Mar 2021	11:42 AM
Soil	29 Mar 2021	11:50 AM
Branches	29 Mar 2021	11:55 AM

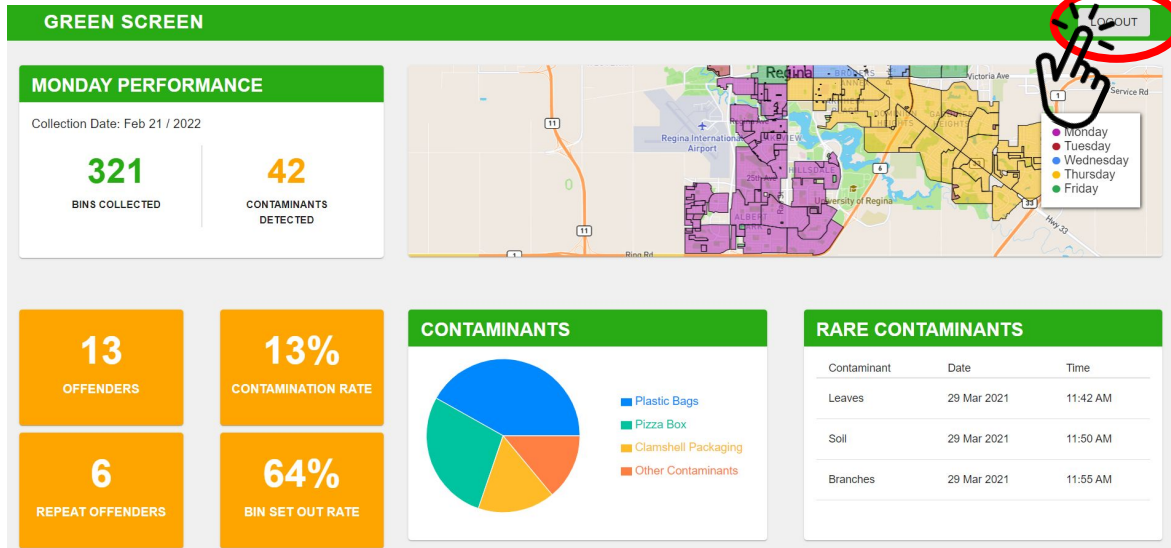

The **Rare Contaminants** panel shows you if any rare contaminants were found and when they were detected.

# 4. Back to Home

Click the  
GREEN SCREEN  
text to go  
back to the  
Home Page

# 5. Logout

**Click** the  
LOGOUT button  
to go back to  
sign out of the  
dashboard
